Todays Agenda:-

Start impl for Tic Tac Toe

Client  
User who is  
playing the  
game

an abstract layer  
for your client which is  
going only necessary  
functionality/abilities to the client.

MVC pattern  
BE project  
diff  
classes of my appn  
start a game current state  
access the state of game  
Execute moves  
Undo  
check the Winner

let's start the implementation.
